## Lima, Peru

14 - 20 November 2016

A Special Report on the APEC Voices of the Future 2016 held in Lima, Peru

## Background

The APEC Economic Leaders' Meeting was hosted by Peru in November 2016 for the second time. The first time Peru hosted the APEC Summit was in 2008 in the wake of the global financial crisis which took place that year. At that time, several APEC economies had already slipped into recession. APEC leaders who gathered at the 16th APEC Economic Leaders' Meeting that year pledged to take coordinated action to restore stability to the financial sector and made renewed commitment to continue trade liberalization and not revert to protectionist measures.

When Peru hosted the 24th APEC Economic Leaders' Meeting in Lima in November last year, it had already taken the lead in advancing quality growth and human development in the country, achieving economic integration in areas such as enhancing its food market, modernizing its micro, small and medium-size enterprises, as well as developing the country's human capital as compared to its neighbours in the region.

The APEC Leaders' Week 2016 was held in the Peruvian capital, Lima, from 19 to 20 November 2016. Besides the host nation Peru, it was attended by the heads of government from Australia, Brunei, Canada, Chile, China, Hong Kong, Indonesia, Japan, South Korea, Malaysia, Mexico, New Zealand, Philippines, Papua New Guinea, Russia, Singapore, Chinese Taipei, Thailand, Vietnam, as well as the United States of America.

The Government of the Republic of Peru, the APEC Summit 2016 Host Committee and the APEC Business Advisory Council (ABAC) have made Peru proud by organizing a very successful APEC Leaders' Week last year.

In conjunction with the APEC Leaders' Week, the APEC CEO Summit and the ABAC Meeting, the APEC Voices of the Future 2016 was concurrently held from 14 to 20 November 2016 with the support of the Government of Peru, ABAC Peru, the Provincial Government of the Municipality of Callao as well as the Universidad San Ignacio De Loyola in Lima. More than 125 selected youth delegates and educators from 16 APEC Member Economies attended the week-long event in Lima, discussing and exchanging ideas based on the theme for the 2016 APEC Summit "Quality Growth and Human Development" and how young leaders from the Asia Pacific region can play a role and contribute to the success of the region.

## 4th APEC Business Advisory Council (ABAC) Meeting

Commerce is the lifeblood of the region and business is the engine of economic growth. Recognizing the integral role of business and the value of representative business advice on key issues and concerns, the APEC Business Advisory Council was established in 1995 by the APEC Economic Leaders as a platform and sounding board on business matters in the region. ABAC members meet regularly to discuss, develop and enhance the business environment and present recommendations to APEC Leaders in an annual dialogue session, in addition to advising policy makers on business sector priorities and concerns.

The 4th APEC Business Advisory Council Meeting held on 14 November 2016 at the Country Club in Lima was graced by H.E. Dr Mercedes Araoz Fernandez, Vice-President of the Republic of Peru. The meeting was also attended by H.E. Mr Bui Thanh Son, Deputy Minister for Foreign Affairs of the Socialist Republic of Vietnam, the Host Economy for 2017 APEC Leaders' Week in Vietnam.

Three selected APEC Voices delegates from the Philippines, Peru and Vietnam were also invited to present their findings and recommendations to the ABAC Members for consideration. The three youth representatives were very eloquent in their presentation and their messages were very well received and drew much praise from ABAC Members. It was indeed a life-changing experience for many youth leaders to be in the same meeting room with key business leaders from the Asia Pacific region.

## APEC Voices of the Future 2016 Youth Forum

The APEC Voices of the Future 2016 Youth Forum kicked off with a keynote address by the Honourable Mr Daniel Guerrero, Mayor of San Marcos of the State of Texas in the USA who shared with the audience on the importance of community leadership, how he served the residents of San Marcos by being a servant leader and how he brought the community together as one big family through his efforts at building a relationship with the people. Mayor Guerrero also shared his personal story about how he overcame a severe illness at a very young age, and how - with the support of his mother — he overcame the odds against him not only to survive, but also to lead and develop his community as an elected official.

The personal sharing by Mayor Guerrero benefited the youth leaders at the forum by challenging them to see beyond themselves for a higher calling in life, while the Q & A Session moderated by Dr Noel Gould, Chairman, Virtual Trade Mission Foundation International and Co-Chair, APEC Voices Leadership Council also brought the session to a high note.

## Visit to Escuela de Talentos, Region of Callao, Peru

The APEC Voices delegates started the day early to travel to the Callao Region to visit the Escuela de Talentos, a school that grooms and nurtures young and talented students from the underprivileged communities in the country. Upon their arrival, students from the school gave the APEC Voices delegates a very warm welcome with broad smiles and friendly faces. The students were so honoured to meet the youth leaders from the 15 APEC Member Economies and welcomed the delegates to their school with much enthusiasm.

The APEC Voices delegates were also very honoured when The Honourable Mr Felix Manuel Moreno Caballero, Regional Governor of Callao was present to welcome them. In his opening address, Governor Caballero welcomed the APEC Voices delegates to the Escuela de Talentos and to the Callao Region. He also thanked the APEC Voices Leadership Council for including a visit to the school and to the Callao Region as part of the official program.

**"Education is the key to grooming the next generation of leaders. We must work in partnership and collaboration with like-minded partners to provide opportunities for our young people to learn the value of hard work, and to excel in whatever they are doing. More importantly, they must be willing to serve and contribute to the community."**

The talented students at Escuela de Talentos put up a very elaborate cultural performance for the youth delegates. They also put in much effort to show their guests around the school and introduced them to the activities and enrichment programs in the school which many of the delegates felt were truly impressive. More importantly, it was the positive attitude and graciousness of the students that won the hearts of every APEC Voices delegate. What impressed the delegates and educators most was the school's mission statement that no talented student is to be excluded from the education system because of their economic status. Indeed, more than 63% of the students come from Ventanilla, Pachacutec, Mi Peru, Villa Los Reyes - areas considered poor or under extreme poverty. These underprivileged students at Escuela de Talentos are given an equal opportunity to develop their potential and to excel.

The visit to the Escuela de Talentos is without a doubt, one of the highlights of the APEC Voices 2016 Program in Peru. The visit ended with great admiration by the delegates for the school's management and leadership in providing the opportunity and platform for its students to excel.
