Course: Case Study—Public-Private Partnerships: Theory, Practice, and Cases

Course No. 5140489 Winter 2012

Instructor: Toshiro Nishizawa

Subject: Preparation for Day 3 (October 19, 2012)

Dear Students,

As informed in the course memorandum dated October 12, students are required to read before Day 3 the following material, which is available on the student bulletin board:

Chan APC, Lam PTI, Chan DWM & Cheung E (2008). Risk-sharing mechanism for PPP projects—the case study of the Sydney Cross City Tunnel. *Surveying and Built Environment*, Volume 19 (1): 67-80.

As discussed on DAY 2 (October 12) at class, you may wish to submit voluntarily *your proposed focus or subject of interest* to help your peers forming groups for the mid-term presentation. If you have any proposal, please send it by e-mail to both Nishizawa's (ayaka_n@live.jp, t-nishizawa@jbic.go.jp, and toshironishizawa@gmail.com) *by Wednesday, October 17*. To help not to miss your incoming e-mails, please start the subject line with “5140489” (Course No.) when you send e-mails.

We can easily find a large number of sources of information on PPPs. Some of them are listed here:

Lastly, you could find on the student bulletin board LECTURE NOTE 2012/10/12: “For and Against PPPs” and the course syllabus as of October 15 with a minor revision to the schedule.

I hope this helps.

Best regards,

Toshiro Nishizawa
