授業のキーワード Keywords	<p>The Challenge</p> <p>We invite students to work on an important policy challenge in any field identified as contentious in today's divided societies, looking into viable paths for consensus-building and evidence-based policies. Proposals can incorporate public, private or hybrid approaches as appropriate.</p> <p>We are looking for student presentations on public policy proposals that demonstrate:</p> <ul style="list-style-type: none"> ✓ A precise identification and analysis of an important and pressing public policy problem; this precise analysis of the problem will need to be clear prior to discussion of any possible solutions ✓ A strong use of analytics and empirics and how these can be applied to inform a solution to the public policy problem identified ✓ An astute understanding of how policy solutions can be implemented given the interests of the policy actors in the chosen context ✓ A clear awareness of when similar solutions have been tried in the past, why they were successful or amended in order to be successful in the future. <p>The proposal should be concise but clearly argued and based on evidence from practice and/or research.</p>
