THE INTERNATIONAL MONETARY FUND SEEKS TALENTED CANDIDATES FOR OUR **Fund Internship Program (FIP)**

Fund Interns gain an insider's view of the member-country-focused mandate and critical international work of the IMF. Whether you see a future for yourself in international organizations or are simply curious about policy and operational work, this is an ideal opportunity to familiarize yourself with both while leveraging your skills and expanding your research experience.

As a FIP participant you will:

- work with an experienced economist on a research project that addresses real-life challenges of IMF member countries;
- gain an insider's view and understanding of the work of the IMF; and
- build professional networks with the brightest minds in macroeconomic policy-making while expanding your research experience

Ph.D. and Master's candidates in monetary and international economics, public finance, financial markets, or related fields within 1–2 years of graduation are encouraged to apply. The 10-12 week paid Fund Internships take place in the IMF headquarters in Washington, DC from June to September. Round-trip travel to IMF HQ and medical coverage are provided.
