The University of Tokyo**

**Venue: Ito Hall, Ito International Research Center,
The University of Tokyo (Hongo)**

1. The world is fraught with multifaceted and intertwined crises including climate change, pandemic, food security and geopolitical tensions. How can we safeguard the global public goods, the very foundation of human prosperity?
2. The divide between the global north and south has been increasing when international collaboration is needed more than ever. How best can we create global mechanism to address the division?
3. What is the strategy of the World Bank to navigate this uncharted sea? What role can youth play to address the global challenge?
