Eligibility	1. The applicant must be a GraSPP student. 2. The applicant must have sufficient skills in English (Possessing Japanese language skills would be an advantage.) 3. Those who are interested in starting a startup
Comments from the institution	Digital Music Securities (DMS) is a soon-to-launch music startup that will utilize advanced blockchain technology to develop a new type of music business globally. The copyrights held by musicians are protected by the blockchain, and a portion of master copyrights can be sold to raise funds in a transparent way. The cash flow generated from the music will also be visualized on the blockchain to protect the rights of the musicians. DMS will operate in English to cater to world musicians from the beginning and plans to expand globally. DMS emphasize its particular effort to discover musicians from disadvantaged backgrounds, such as refugees, and provide them with opportunities.
Condition	Commuting fee will be provided.
Selection	An interview by faculty members may be arranged. GraSPP will recommend the shortlisted applicants for final selection by Digital Music Securities, Inc.
Other notice	*Please write what you would like to learn/earn through the internship in the Statement of Purpose. *The internship is planned to be held at the office and remotely.
